

Would you like to be involved in exciting cloud-based software projects? Working with the latest technologies and techniques? Work as part of a truly Agile organisation? Then join our talented engineering team in Lower Eashing, near Godalming, Surrey. You'll contribute to all aspects of software testing from defining test cases to writing automation scripts and performing manual functional and non-functional tests.

We are seeking testers who are passionate about quality, that enjoy a highly collaborative working environment and seek to solve technically challenging problems. You will be working with a mature automation framework with selenium grid and nodes to run tests in parallel. Automation covers both UI and API tests and you will also have the opportunity to perform exploratory testing on both client and server side.

## Required experience:

- Professional experience in Software testing using both manual and automated techniques
- Experience using Selenium, ideally with C#
- Experience in both server and client-side testing and cross-browser testing
- Experience analysing user stories for their testing requirements both functional and non-functional
- Understanding of Agile methodologies, SCRUM and TDD specifically
- Familiarity with MS SQL or similar databases
- An understanding of Continuous Integration
- Fluent written and spoken English, able to tailor communication to the target audience
- Existing legal right to work in the UK

## Desired experience:

- Understanding of networking technologies such as SNMP, MPLS, Netflow, DNS, etc
- Experience using SpecFlow
- API Testing (manual or automated) including use of tools such as Fiddler or Postman
- Experience in non-functional testing, particularly performance and security
- Microsoft Azure experience
- Source control management with Git and Subversion
- Working knowledge of PowerShell

## Salary and Benefits:

We provide a supportive environment with a focus on providing opportunities to grow your skills and experience. In addition, we offer:

- Competitive salary
- 24 days holiday, increasing by one day per full year to a max of 30
- Workplace pension scheme
- Private healthcare
- Cycle to work scheme
- 3 x 24" Monitor development PC
- Pluralsight subscription
